

New Jersey's "Do Not Call" law should not be eliminated because it is stronger than the federal law. Time with my family is precious and need not be wasted by answering useless telemarketing calls. I feel the federal law should be made stronger with swift prosecution of the companies that ignore the law and the prosecution should extend to the owners of the companies as well. Freeze company and some personal assets so they cannot fold the company that is violating the law and start another. Hold these individuals responsible for their actions and make the laws stronger.
